

CFNC.org provides a way for students to search for programs that can help prepare them for college.

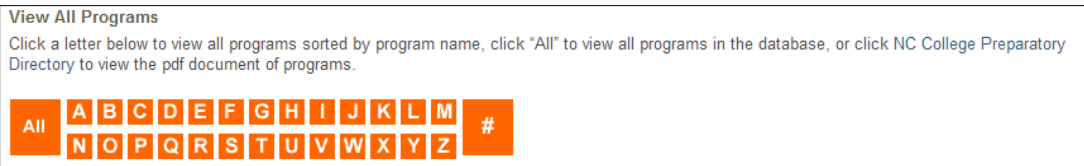

Colleges typically submit these summer programs in the spring for the upcoming year. It is a great resource for students and parents to view available programs and camps to keep them sharp and gain exposure over the summer break.

There are two ways to search for Programs.

1. The first is browsing all programs whose name begins with a specific letter, or simply view a list of every program available, using the View All Programs option.

2. Use the Advanced Search to look for programs that match your criteria! The Advanced Search allows you to search by Grade Level, Subject, Host Organization or by program name.
